RIDING ON THE SKY STORM MYSTERY

is an independent musical EP-concept produced in 2021 on the registre « Music electro » with Concept/Lyrics/Vocal by Parisian French-Italian Art Performer Stefano FRANCO-BORA, on a Music by MarieGalante Antilles Caribbean's Beatmaker Jean-Michel Ibalot.

In january 2021, French/Italian multi-Art Performer Stefano Franco-Bora decided to create a MUSICAL CONCEPT describing a « DYSTOPIAN FAIRY TALE » in the form of an « electroMusic opera » in 5 songs/5 actes sounding like a science-fiction tale about the mysterious adventures of the fictional character « Lady in Red », which could be close to a post-modern « Alice in wonderland », confronted with the uncertainties of our cyber-world which has become wild and uncontrollable.

He wrote the concept and lyrics then called from the Parisian circuit Marie-Galante Antilles Caribbean beatmaker Jean-Michel Ibalot (former musician for refs like Manu Chao Mano Negra, among others) for composing the electroMusic parts.

5 months of work from january to may 2021 were necessary to achieve this creation, All the work was made « at distance/remotely » due to covid19 lockdown then curfew. Stefano was at Antibes on the south of France and Jean-Michel at 1000 kms at Paris, and the tandem could not see each other during all the process and could only communicate by phone and the internet to build this artistic adventure, with Stefano writing the lyrics and recording the vocals in the french south riviera & Jean-Michel composing the music and mixing the result in Paris.

The motto of this creation could be : « even in this dark and dramatic situation (of the covid crisis), let's keep our creativity and keep moving forward as a resistance »

The result is this 5 tracks electro opera far from the mainstream productions but close to the « avant-garde » sensibility. During the summer 2021, a limited pre-release was made and immediatly met an instant international echo from both international audience & professionals.

In **June & July 2021** thru the **streaming platforms like spotify or deezer**, then in **August 2021** thru a "Media avant-première" via the **Groover's** plateform with as results the **entries on various international websites and playlists curated by mainstream-circuit sources** : Usa (TSWS www.thesoundswontstop.com), Canada (www.tinnitist.com), Brazil (NP www.nationpop.br), Mexico (www.indiemovradio.com), Colombia (www.zonagirante.com), India (UP www.updatefreak.com), Austria-Germany (<https://nenesbutler-presents.blogspot.com/>), **UnitedKingom** (British playlist Ibiza Ushaia https://open.spotify.com/playlist/0Dwp1Hap5jrp66DVppL7lp?si=5482efedbc794010&fbclid=IwAR3MX1ASTXCYN7DE0oxRrGO-RMzjkbHA-ZBPZHAZxsdQmvD5DvD91f_3snk&nd=1), etc...

This pre-release initiated a number of major labels' proposals to sign the production for an international release. With this 5 music tracks narrating a story, it's **not only a musical prospect but a multi-genres concept opening the way to live showcases, 5 cinematic MV movieVideo clips, and connexions with the fashion industry** for hype advertisement campaigns.

When the electroMusic strikes back... the Stefano Franco-Bora/Jean-Michel Ibalot's « Riding on the sky storm mystery » artisanal indie concept appears to be surprisingly one of the **big outsiders for a 2021/2022 international hit**.

The aventure continues, and no one can say where it will end...
